SUMMARY

Motivated and detail-oriented MERN Stack Developer with a solid foundation in JavaScript and expertise in building dynamic, scalable web applications. Successfully completed a comprehensive MERN stack course, mastering front-end and back-end technologies like Node.js, Express.js, React.js and MongoDB.

PROJECT

Frontend

Mapora

[mapora.com](#)

- Built a responsive React-based web app that displays dynamic country data using clean state management.
- Integrated json-data to filter, search & showcase country details with an intuitive UI.

Backend

Password-Manager

[passwordmanager.com](#)

- Developed a secure password manager using React.js, enabling users to store, update, and manage credentials efficiently.
- Integrated MongoDB for persistent data storage, ensuring seamless CRUD operations with a secure backend API.

Airbnb

[airbnb.com](#)

- Developed backend applications using Node.js and Express.js for efficient server-side functionality.
- Implemented MongoDB as the database for managing CRUD operations with optimized queries.
